PERFORMANCE OF WOOD PRODUCTS AGAINST UPCOMING EUROPEAN REGULATIONS ON PRODUCT EMISSION

Wednesday April 24th from 12 to 3 pm in **Savonlinna**, Teoriatila Kuitu 3 B015

The presentation will cover the upcoming requirements on VOC emissions from building products under the European construction regulation, the relevant testing and evaluation procedures as well as examples how wood products are performing against this. The typical substances from various wood products, short term vs. long term performance and process parameters affection these properties will be discussed.

The presentation is free of charge and open to all.

We ask you to register at <https://www.lyyti.fi/reg/martinohlmeyersavonlinna> (<https://www.lyyti.fi/reg/martinohlmeyersavonlinna>).

On Tuesday 23rd there is another presentation in Mikkeli <https://koulutuskalenteri.xamk.fi/tapahtumat/requirements-on-indoor-air-quality-in-the-context-of-emissions-from-building-products/> (<https://koulutuskalenteri.xamk.fi/tapahtumat/requirements-on-indoor-air-quality-in-the-context-of-emissions-from-building-products/>).

The presentations are a part of [RAKES 2020](https://koulutuskalenteri.xamk.fi/tutkimus-ja-kehitys/rakennuskusterin-osajat-etela-savossa-rakes-2020/) (<https://koulutuskalenteri.xamk.fi/tutkimus-ja-kehitys/rakennuskusterin-osajat-etela-savossa-rakes-2020/>), (in Finnish)

DR MARTIN OHLMEYER

Head of unit. Human Health and Consumer Protection Thünen-Institute of Wood Research, Hamburg, Germany formerly known as: Federal Research Centre for Forestry and Forest Products (BFH), Institute for Wood Physics and Mechanical Technology of Wood
Policy advice for the Federal Ministry of Food and Agriculture (BMEL) in the field of wood and process technology, material properties and esp. product emissions.
